AI STRATEGY & PROJECT LEAD

I turn AI strategy into real-world execution. 15+ years leading technology projects in enterprise and banking — now leading the AI Lab at GFT.

PROFESSIONAL EXPERIENCE

GFT IT Consulting **CURRENT** 2016 — PRESENT

Strategic leadership of the AI Lab · AI & Digital Transformation

- Strategic leadership of the **AI Lab**: strategy, roadmap and delivery of AI solutions.
- Definition and execution of digital transformation strategies for key clients: **BBVA, Deutsche Bank and BANKIA**.
- Coordination of multidisciplinary teams implementing AI-based solutions in enterprise processes.
- Comprehensive project management under **Waterfall and Agile** methodologies — optimising time, resources and quality in every delivery.
- Technology roadmap supervision, initiative prioritisation and alignment of strategic objectives with business needs.

SOTEC 2011 — 2016

Agile project direction · Enterprise Banking

- Agile direction of technology projects for **ISBAN**.
- Transition from technology delivery to team leadership: delivery, quality and people.

CALCULO 2000 — 2011

Functional analysis & senior development · Enterprise Solutions

- Functional analysis and senior development in enterprise solutions for **MAPFRE**.
- Deep foundation in how enterprise technology works — from the inside.

EDUCATION

Máster en herramientas prácticas de Inteligencia Artificial — specialised in practical AI tools for enterprise optimisation.

AI CAPABILITIES

- /01 **AI Strategy**
What AI should do for the business — and what it should not. Roadmaps and prioritisation.
- /02 **AI Project Leadership**
Multidisciplinary teams, full lifecycle, Waterfall and Agile.
- /03 **AI Transformation**
Embedding AI into people, process and technology.
- /04 **Project Delivery**
Time, resources and quality on complex enterprise projects.
- /05 **Digital Transformation**
Technology roadmaps for banking leaders.
- /06 **Business Alignment**
Every initiative answers a business question.
